remarks:

Sale on behalf of a customer.

The existing parts have been restored by Orgelbau Mühleisen/Strasbourg.

On the C/C# side and on the left and right outer sides, there is space for a new wind chest for 15-16 pipes of a 16' register.

The pedal pipes are not available.

Without bellows and without fan.

For an extension, the 3rd manual (there is no wind chest), there are still some original historical stops by Hans Mauracher (1885/1892) from Salzburg:
