Pedaldolce 16' (ersetzt durch 4')
Pedalbass 8'

couplers:

Pedalforte
Forte Untermanual
Forte Obermanual
Manualkoppel II-I
Oktavkoppel I

remarks:

Very well preserved harmonium from the 1930s with rare drive technology. The drive belts made of leather were freshly overhauled, so that the flywheels run perfectly. Round, full of sound and very direct in the speech. The rectifier for the internally mounted electric motor is located in an extra housing next to the harmonium. Accessories such as original oil jugs and the matching music stand light are available. The instrument can be viewed and played with us in Wuppertal.
