Manual 2
Koppelflöte 8'

Pedal
Rohr Bourdon 8'

couplers:

I/P

remarks:

Delightful and very musical pipe organ suitable for House, School or University. Built in 1977 by Rudolf Oehms and Eduard Sebald's craftsmen for a private house in Switzerland. Light playing touch under the fingers and bright tone, with strong basses. Extremely handsome and compact pipe organ. The 240v organ blower is housed inside the oak case and the whole organ is on wheels. The organ will fit into a normal house with 244cm ceilings. All original 1977 documents provided to purchaser. The UK seller can arrange packing and shipping for a fee.
