remarks:

Choir Organ of the Ulm Minster.

The organ was regularly maintained and cleaned in 1981 and 1994.

In 1994, 3 registers were exchanged, in 1995 the tongues were renewed.

Now a next cleaning and overhaul is required.

We are happy to provide further information.

The organ can be bought and dismantled immediately.

Currently there is a scaffold under and in front of the organ, which can be used for mining.
