remarks:

Height of the middle section: 385 cm

Height of the side sections: 325 cm

Disposition, arrangement of the works, mensuration, and case design: OSV Herbert Schulze and physicist Dr. Karl Theodor Kühn (Berlin)

The organ has been regularly maintained and is in good condition. Cleaning would probably be necessary.

There are many old letters and documents that document the difficult process of building this organ.

An instrument definitely worth preserving.
